ST. THOMMEN HOME 10 MONTHS OVERSEAS

Sgt. Lionel (Bud) Thommen arrived home Tuesday after ten months of overseas duty in the European theater, to visit his wife, Irene, and his parents, Mr. and Mrs. F. A. Thommen.

Bud brought one of the finest displays of German guns and daggers and Nazi flags, as yet seen in this vicinity. One of the officer's daggers is made of sterling silver and beautifully decorated, while another has a blade of highly polished chromium steel. Ye editor gratefully acknowledges the bayonet dagger presented to him. It is a wicked-looking weapon with a double-tooth edge on the dull side, one row of the teeth slanting up and the others down.

Sgt. Thommen wears the E. T. O. ribbon with 4 battle stars and the bronze star. His experiences over there were many, and he admits he was as scared to death as any other G. I. over there during the whole ten months, more of which will be told in next week's issue.

After a 35-day delay enroute with home folks, he will report at Camp McCoy, Wis., and continue on to Ft. Benning, Ga., for additional training before reassignment.

The above article from the Bowdell, South Dakota, Pioneer will be of interest to many Elbians. Mrs. Thommen will be remembered as Miss Irene Moore, daughter of Mr. and Mrs. Joe Moore, of New Brockton, Route 1.

MR. ROWE SEES NEW CHEVROLET FOR 1946 AT ZONE MEETING

Mr. Sam N. Rowe, sales manager for Dorsey Brothers, Chevrolet dealer at Elba, returned from Birmingham last Wednesday, where he attended a preview of the new 1946 Chevrolet at the company's zone headquarters.

He was reluctant to discuss the mechanical and style features of the new car but by his eager attitude it was apparent that he expected the formal announcement and public showing of the car to be at an early date.

Mr. Rowe said he and other dealers in the area were confident that the 1946 Chevrolet will maintain the record of top volume sales, which Chevrolet reached in 10 of the last 11 prewar years of automobile production, to meet the unprecedented pent-up demand for new cars.

Following the same policy as in former years, the new Chevrolet will be displayed simultaneously in dealers' showrooms throughout the country. Mr. Rowe said. Radio and local newspaper announcements will be made, telling when prospective customers may see the new car for the first time. These announcements are expected to be good news to motorists and to dealers alike.

Mr. Rowe stressed car care, with the warning that motorists should not expect the 1946 Chevrolet to be available in great quantity immediately. The supply to dealers will increase as production in the Chevrolet plants permits.

The Future of Pulpwood in ALABAMA

• One result of the war has been to make the people of this state more conscious than ever before of the great asset we have in our pulpwood resources.

Now that complete victory has been won, the new usefulness of pulpwood will result in increased peacetime consumption of paper, rayon, plastics and many other products of pulpwood. Part of our vast forest heritage, pulpwood—a basic American industry—will continue to serve the nation in peace, as it did in war.

Make the Most of this Asset

Intelligent cutting of pulpwood pays big dividends. By adequate planting

PROPER THINNING MAKES TREES

and selective cutting even a small farm woodland can yield a valuable crop of pulpwood periodically. It is a crop which needs only a little care and can be harvested at any convenient time. It is another cash crop. Consult your nearest district forester or forest ranger.

PREVENT FOREST FIRES

Fires kill trees for present and future needs and make land unproductive. Everybody loses and nobody profits when forests burn. Be sure fires are out!
